Summary

Data Science graduate with practical experience in data processing, analysis and machine learning. I believe technical work can only add real value when grounded in domain understanding, something I actively pursue in my projects. Currently completing the Rockborne data consultancy programme whilst seeking permanent roles in data analysis, science or engineering.

Education

University of Exeter (2022-2025)

Data Science BSc (Hons) - Grade 2:1

Rockborne Data Training (April 2026-Present)

Intensive industry training in data consultancy. Currently completing the programme whilst actively seeking permanent data roles.

365 Data Science (Online)

Data Scientist Career Track

Projects

Behavioural Profiling & Classification from Game Telemetry

- Parsed 400GB+ of binary data from Counter-Strike 2 matches into engineered features, aggregating them into a **published dataset** with over 200 community downloads across [kaggle](#) and [huggingface](#).
- Performed domain-informed statistical analysis and evaluated classification performance to demonstrate **potential for commercial application**.

jamiepacker.com/projects/cs2-behavioural-profiling

Rockborne Projects

Completed various micro-projects during the programme including using real data to produce dashboards in Tableau/Power BI, a sports league relational database in PostgreSQL and a local ETL pipeline in python to produce an analytical dataset on crime in south-east England.

Previous Jobs

Cocktail Bartender (2021-2026)

TGI Fridays | Turtle Bay | The Ivy Asia

Worked across four years in high-volume and premium hospitality venues, developing strong communication and the ability to adapt quickly to different client needs.

Skills & Technologies

Languages: Python, R, SQL | **Libraries:** Pandas, PyTorch, Scikit-Learn, Polars, Seaborn | **Tools & Cloud:** Tableau, Power BI, Excel, Docker, Google Cloud Platform, Cursor, GitHub | **Concepts:** Machine Learning, OOP, Hypothesis Testing, Responsible Agentic Coding
